

**50<sup>th</sup>** Annual  
Production Sale  
**ARNTZEN**  
ANGUS RANCH

**APRIL 2<sup>ND</sup>, 2026 • 1:00 P.M.**  
**50th Annual Production Sale at the ranch**  
**Selling 220 Bulls & 20 Top End Yearling Heifers**

[www.ArntzenAngus.com](http://www.ArntzenAngus.com)

We are both excited and humbled to be producing our 50th annual bull sale this year! Through the years we continue to breed with the exact same goal - a consistent, predictable product that offers The Power of Predictability. Our cattle philosophy is simple – easy fleshing, high maternal, calving ease cattle with a genetic emphasis on performance for our conditions.

50 years of Bull Sales – some dry, some buried in snow, welcoming new faces and saying goodbye to those faces we'll miss..... As we reflect on this milestone, we simply could not have made it without the support of our Family, Friends, Employees and most importantly our Customers.

We are lucky to be incorporating the 4th Arntzen generation into the cattle and daily operations – doing so in a season where Mother Nature has mostly cooperated and also aligned with today's strong cattle market. Cattle inventories remain low, and those who have built upon and relied on the dependable Angus female are realizing the invaluable benefits of the natural, maternal instincts, carcass quality and efficiencies the Angus breed provides.

We're pleased to introduce this year's set of bulls, which stem from those predictive and productive females that uphold our Power of Predictability. This year's set of 220 bulls and 20 top-end yearling heifers are prodigy from well-known sires AAR Justified K012, AAR Essential, AAR Midas, and Koupals B&B Bridger 2041 and Simonson Stryker 942. We're eager to debut AAR Axell and AAR Hilger 2901.

We cull the bottom half of our crop to ensure the best product for our customers. They were raised without creep and their feet have not been trimmed. As in the past, they are developed at Hould's Feedlot at Malta; and Bruce and his crew excel in preparing our bulls. The bulls are fed a high roughage ration to ensure structural soundness when they arrive to your pasture.

All of the bulls have had a fertility examination and have been DNA tested through Zoetis HD50K or Neogen Angus GS. This additional DNA analysis provides increased accuracy of each animal to improve confidence in your purchase. In addition to our yearling bulls, we are also offering 20 high-quality yearling registered heifers that are an intentional example to the maternal emphasis we hold.

We'd like to recognize our excellent ranch help and their extended families. AAR is fortunate to have Logan and Megan Tomschin on our team. They bring years of experience and their day-to-day help keeps the operation moving forward in a calm and consistent method. Brace and Haley Pingetzer and their young family have been with the ranch for just a couple of years but fit in great, and have become very valuable assets to both the ranch and community. The newest addition is Dylan Willcut, who is a nephew and cousin to our operation. He's been an asset for two calving seasons and we're excited to have him join the ranch full time.

Join us April 2nd at the ranch for our 50th Bull Sale! CAB lunch is served at noon with the sale following at 1:00.

The sale bulls are available for inspection at the ranch anytime. We will also host a meal on Wednesday (April 1st) evening at 5:30 at the sale barn. This is always a great time to preview the cattle, or just catch up with friends.

If you cannot make the sale, it will be broadcast on Northern Livestock Video. Please contact any of us with questions – we are looking forward to April 2nd!

## *The Arntzen Families*

**Delivery**

Free delivery in Montana. Out of state delivery at cost. We enjoy delivering your cattle, but due to the busy season, we will rebate you \$100 per bull that are picked up within 4 days of the sale. We'll come and visit at a more convenient time.

**Terms & Conditions**

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the block take precedence over information in this catalog.

**Additional Information**

Additional information will be available sale day. You can also check our website for current information and updates. Videos of the bulls will be available in mid-March at www.arntzenangus.com.

**Genomic Enhanced EPDs**

All of the bulls in the sale offering have had additional DNA testing to increase EPD accuracies and predictability. These animals are identified by the AngusGS and HD50K logos.

**References**

American Angus Association®, AHIR®, Angus Source®, CAB®, Pathfinder®. EPDs current as of February 27, 2026. Updated EPDs can be viewed at: www.angus.org and www.arntzenangus.com.

**Liability**

Arntzen Angus Ranch will not be held responsible for any accidents.

**Retained Interest**

We will be retaining a 1/3 revenue share interest on all bulls selling.

**Health**

All cattle selling are cleared for interstate shipment. All bulls have been fertility tested. All sale lots are free of all known genetic defects. NO CARRIERS SELL! All cattle are guaranteed. We expect them to perform for you. Please notify us if you have an injury or a breeding problem. Special thanks to Dr. Paul Brady and Dr. Greg Carlson for herd health assistance.

**Online Bidding**

Bid through Northern Livestock Video Auction's NEW Online Bidding Platform! Desktop and Mobile Friendly!

**For the Desktop:** It is best to use the Google Chrome web browser. Pre-Register at least one day prior to the sale. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid". Doing this will prompt you to create an account, after which you will fill out a bidder approval application. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

**For the Mobile:** Use your mobile device to download the Northern App and follow the above steps to get approved. There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

**For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.**

**Phone Bidding:** Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

**To register with NLVA call 866-616-5035 Before Sale Day.**

View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Northern Livestock's Sale Day Bid Line: **1-406-245-0889.**

**Accommodations**

There are several nice motels in Lewistown. We would be happy to make your reservations for you.

Yogo Inn ..... 406.535.8721  
Super 8 Motel..... 406.538.2581  
Calvert Hotel..... 406.535.5411  
Winifred International Suites..... 406.462.5323  
Cottonwood Log Cabins..... 406.538.8411

**Additional Contacts**

Doug & Gayle Arntzen ..... 406.350.5553  
Keith & Kris Arntzen ..... 406.462.5557 or 406.350.5557  
Erik & Amber Arntzen..... 406.462.5410 or 406.380.1447

**Be our guest for a CAB lunch starting at 12:00 p.m. Sale at 1:00 p.m. A pre-sale burger fry will be held at the sale barn on Wednesday starting at 5:30 p.m.**

### Claw Set EPD (Claw)

Claw Set EPD (Claw), is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

### Foot Angle EPD (Angle)

Foot Angle EPD (Angle), is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

### Functional Longevity EPD (FL)

Functional Longevity EPD (FL), expressed in number of calves, is a predictor of the number of calves a sire's daughters are predicted to produce by 6 years of age compared to that of other sires' daughters. A higher EPD is the more favorable direction indicating more calves produced on average.

### Maternal Weaned Calf Value (\$M)

Maternal weaned calf value (\$M) is the most maternally-focused selection index currently available to Angus members and commercial users of Angus genetics. \$M, expressed in dollars per head, aims to predict profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves.

\$M places greater emphasis on the cost side of commercial cow-calf production than any tool available in the past. Increased selection pressure on \$M aims to decrease overall mature cow size while maintaining weaning weights consistent with today's production. Under \$M selection, less emphasis is placed on maternal milk, while heifer pregnancy and docility have an increased emphasis, and foot traits start to improve. The index finds cattle that are most profitable when producers receive no economic benefit for traits affecting post-weaning performance.

For example if Bull A has a \$M of +75 and Bull B has a \$M of +55 and both are mated to a comparable set of females, one would expect, on average, for Bull A's progeny to be \$20 more profitable per head for the cow/calf producer.

*EPDs directly influencing the index include: calving ease direct and maternal, weaning weight, maternal milk, heifer pregnancy, docility, mature weight as well as foot angle and claw set.*

### Combined Value (\$C)

Combined Value (SC), an index, expressed in dollars per head, which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: calving ease direct (CED) and maternal (CEM), weaning weight (WW), yearling weight (YW), maternal milk (Milk), heifer pregnancy (HP), docility (DOC), mature cow weight (MW), foot angle (Angle), claw set (Claw), dry matter intake (DMI), marbling (Marb), carcass weight (CW), ribeye area (RE) and fat thickness (Fat).

### Heifer Pregnancy (HP)

*Another EPD that we have started watching very closely is Heifer Pregnancy. You will see it mentioned in our footnotes. A higher number is more favorable. We often times refer to it in % Ranking against the rest of the breed. In that situation, 1% is the best with 95% being the poorest.*

*Below is the American Angus Associations definition.*

A selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

### Calving Ease Codes

In an effort to assist our customers with calving ease, we use a four star scale. We feel you can moderate birth weights and calving ease without giving up that much growth. But with the higher birth EPD and birth weight bulls, you can still expect a greater increase in weaning and yearling weights. We have coded the bulls in the following way.

- ★ Recommended for cows only.
- ★★ Mainly for cow use. Although some two star bulls would work on large capacity heifers. Their birth weights and EPDs combined with their pedigree would make them hard to recommend.
- ★★★ For heifer use. Many of these bulls will have the genetics to go on and be used on cows.
- ★★★★ For heifer use. These will be the easiest calving bulls of any in the sale.

### Pathfinder® (#)

The pound sign in a pedigree represents an animal that has qualified as a Pathfinder®.

In order for a cow to be qualified as a Pathfinder® she must meet three criteria:

1. Their first calf must be born near the herds average age for first calving.
2. They must maintain a regular calving interval. The maximum calving interval is 365+ (30 days/number of calving intervals).
3. The cow must produce at least 3 calves with an average weaning weight ratio of 105 to qualify for the report. A minimum of 10 contemporaries must be evaluated together each year to determine the weaning weight.

We put a lot of value in Pathfinder® cows. We feel that it is a very good way to sort out the superior cows. Some of our top cows still won't qualify for Pathfinder® for reasons that are out of our control. Some such reasons would be flushing a cow, or if a calf dies.

### Docility (Doc)

*Docility is something that we have focused on since we started in the Angus business over 60 years ago. The American Angus Association is now producing a docility EPD that we are finding to be very valuable as an assist for a purchaser when looking at temperament of a bull. We decided to include it in the lot block with a higher number being more favorable.*

*Below is the American Angus Associations definition.*

Expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

# DEDICATED. COMMITTED.

WHOLE HERD REPORTING WITH MATERNALPLUS

## DEDICATED TO DATA.

Dedicated to Data. We devote extra time to collect maternal traits beyond those required to target greater performance and predictability. Our goal is to not only to improve our genetics today, but also prepare for the future of the Angus breed.

## COMMITTED TO IMPROVEMENT.

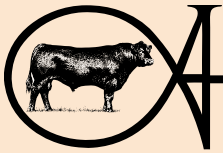

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously. That is why we believe a commitment to the female starts with Maternal Plus.

Contact AGI at 816-383-5100 or [agi@angus.org](mailto:agi@angus.org) for more information

# ANGUS

THE BUSINESS BREED

AAR is passionate about the mother cow and she truly lies at the heart of our program. The maternal characteristics of our herd heavily influence our end product to our customers - quality & predictable bulls that will add value and profitability for our customer.

**Maternal Plus™ is a voluntary program that emphasizes the importance of the female and maternal-focused EPDs. These will continue to improve the industry and add transparency for our customers.**

### Whole Herd Reporting

- We report a starting inventory for each animal every year.
- Report breeding dates and sires.
- Report animal disposal dates and reason, such as death or reason sold.

*This data is being used towards a longevity EPD to target animals whose offspring tend to 'stick around' longer. A long term producing cow is one of the most profitable units to a rancher's bottom line.*

### Foot Scores

- We score 2x annually: at weaning & at calving.
- Feet can change considerably in a year's time.

*We cull feet harder than any other trait – if an animal won't travel, they won't work.*

### Udder Score

- We score annually at calving.
- Our preferred evaluation is after the cow has calved, but before the calf nurses for the first time.
- We evaluate the teat size and udder suspension.

*Udder scoring plays into our culling decisions. We look for newborn calves to nurse without assistance.*

### Body Condition, Height, Weight & Disposition

- All 4 metrics taken annually at weaning.
- Reported annually to Association.
- Association can monitor the lifetime development of an animal.

*Continual reporting of this information aids in phenotypical assessment and decision making for our breeding and culling decisions.*

**WHY DOES 70 YEARS MATTER?**

*It matters because since 1956 we have been pursuing the same traits that we are still selecting for today. As you can see in Lot 2's pedigree, 9 times we bred females to top bulls that excel in Maternal, Efficiency, Structure and Disposition. The type of cattle that thrive in tough conditions. By keeping the same philosophy in mind, we are increasing the likelihood of those top traits being reflected in each animal. When purchasing from Arntzen Angus, you are taking the guess work out of breeding decisions.*

- Midas was a highlight of our 2023 sale going to Benoit Angus and Genex
- He has proven calving ease and above average growth. Outstanding EPD profile with 128 \$M. Recent actual carcass data has helped to greatly improve his carcass merit.
- Midas is a moderate framed bull with thick top, deep rib and exceptional eye appeal. His dam is a proven cow with 4 calves averaging 103. She is a model Angus cow. Very sound on her feet and a well balanced udder

- We purchased Agenda with Math Farms out of the 2022 Woodhill Sale in Wisconsin.
- He is legitimate calving ease bull that still puts a lot of muscle and shape in his calves. He has really excelled by siring exceptional foot quality and docility
- His daughters have been some of our best. They are excellent uddered, very docile and easy fleshing. Very productive as well with 17 daughters averaging 101 on nursing ratio.

- We retained Axell out of our 2023 bull crop. His sire, Agenda, has done an excellent job of producing calving ease and well-muscled bull calves. His daughters have been excellent. Very docile, easy keeping and exceptional udder quality.
- Axell's first calf crop proved he can sire calving ease and above average growth. Seventy one calves at AAR averaged 102 on weaning ratio.
- His Load Up dam has earned pathfinder status with 5 calves average weaning ratio of 105. She is a very pretty fronted cow with good depth of rib and excellent udder quality.

- This is our second set of Bridger sons and they look like they will make great heifer bulls.
- He provides a fresh look on the pedigree side. They are long made, sound structured and have a nice muscle pattern. We just finished calving his first daughters and they are doing a great job.
- His dam, B&B Blackbd Progress 3015, is one of the most prolific cows in the breed. She has 6 bulls currently selling semen and in February, she had another son sell for \$600,000.

- We selected Stryker from the 2023 Minert/Simonson annual production sale. We had a handful of bulls in last years sale but we have a much larger group this year and they look great. He possesses many of the traits we are searching for; gentle disposition, stout made and standing on a great set of feet. We calved his first daughters this year and they are the keeping kind. Great females that will last a long time.

**Pine Coulee Hannibal H316**  
Sire of A A R Hilger 2901

- Hilger was a top seller in our 2023 Annual Production Sale to Pine Coulee Angus Ranch. He is the best Hannibal son that we have raised to date and he combines an excellent phenotype with an outstanding EPD profile. We have more of his sons hitting the ground right now but he died at a young age from a snake bite so his semen is quite limited.

# WHY ANGUS?

EPDs across different breeds and database cannot be directly compared. The information below allows producers to adjust EPDs from different breeds to make them directly comparable.

This chart, Adjustment Factors to Estimate across-breed EPDs, demonstrates Angus cattle provide the best combination of growth, calving ease, and carcass traits relative to other breeds.

<i>Breed</i>	<i>BW EPD</i>	<i>WW EPD</i>	<i>YW EPD</i>	<i>Milk EPD</i>	<i>Marb EPD</i>	<i>REA EPD</i>	<i>Fat EPD</i>	<i>CW EPD</i>
Angus	0	0	0	0	0	0	0	0
Hereford	0.8	- 11.5	- 22.3	- 10.9	- 0.29	0.04	- 0.067	- 61.6

Source: 2025 Across-Breed EPD Table and Improvements – Beef Improvement Federation

# 20 ELITE REGISTERED HEIFERS

Offering 20 of our elite yearling heifers picked right off the top. All registered heifers have been Angus GS DNA tested to increase EPD accuracies and predictability.

We will be offering to breed and pasture these registered heifers until mid-August at cost of \$400.

Free delivery in Montana. Heifers will be guaranteed bred.

Fancy Stryker heifer here. Stryker daughters have turned out to be excellent mothers. They are very docile and pleasant to be around when they calve. They have displayed excellent udder quality and foot structure

Each year we donate half of the proceeds of one heifer to a worthy cause. This year, we have selected Winifred Business Professionals of American.

VALUE ADDED PROGRAMS

# Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 7-24 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	24	Docility	11
Birth Weight	13	Heifer Pregnancy	22
Weaning Weight	19	Mature Weight	16
Yearling Weight	24	Mature Height	7
Milk	14	Carcass Weight	7
Yearling Height	12	Carcass Marbling	8
Yearling Scrotal	16	Carcass Ribeye	11
Dry Matter Intake	17	Carcass Fat	12

## How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

**DELIVERY INSTRUCTIONS:**

# MOST VALUABLE PLAYER.

Bulls get a lot of hype. And rightly so. But, the Angus cow? Now, she's valuable.

She adds a lot to your business. She's maternal. She works in any environment. And, she's always at the top of her game delivering better calving ease, milk, faster growth and superior marbling genetics. Make America's cow your Most Valuable Player.

Angus. America's Breed. Learn more at [www.Angus.org/BusinessBreed](http://www.Angus.org/BusinessBreed) or call 816-383-5100.

**ANGUS**  
THE BUSINESS BREED

***Here is a picture of Bob Else's steers that were sold on January 5, 2026. They topped the market that day in Belleville, Kansas at 900 pounds, selling for \$362.85/cwt. Almost Bob's entire cow herd is made up of females that he has purchased from our Signature Female sale. Real world cows that go out and get the job done.***

# **ARNTZEN** ANGUS RANCH *Signature* **FEMALE SALE**

This year we will be working on our 5<sup>th</sup> Annual Arntzen Angus Signature Female Sale. We could not be more pleased with how it has progressed. The quality of cattle and interest in the animals seems to be gaining momentum. We saw cows and bred heifers set a tone for the bred female market, and were some of the best prices seen around the country.

We feel the future is bright and would like the opportunity to help market your females with strong genetic influence from AAR. The fifth annual commercial female sale will be held on Friday, November 14 at Lewistown Livestock Auction. We are offering our customers a platform to market high quality replacement and bred females. We encourage cattle with heavy influence of Arntzen Angus genetics and bred to AAR bulls. The sale is a well-advertised event sponsored by Arntzen Angus.

Let us know if you are interested in consigning females. Any size consignment is welcome. Please let us know if we can assist with selections. Contact Kevin, Brad, Derik, or Kyle Shobe at Lewistown Livestock Auction or Dan Deichmann at Deichmann Livestock Brokerage with questions or to get consignment details and information.

## ***With Arntzen Bulls***

### ***.... You're in the Driver's Seat***

With every Arntzen bull sale and Signature female sale you know it. You're in the driver's seat with this impactful set of bulls and females. They are consistently bred for performance, structure, eye appeal and good dispositions. All basic quality traits that cowmen and feeders need and demand. We are in a quality driven market, and will always be, and the industry demands cutting edge genetics. The Arntzen program give you that and the most important marketing advantage that comes with the program. This year we'll purchase as many steers sired by AAR bulls as we can. Our order dictate that.

The AAR females are as marketable as any we've ever sold. With the creation of the AAR Signature Females Sale, now going into its fifth year, take this opportunity as a buyer to take advantage of this deep rooted Angus program, now in its 70th year.

The key for you as a producer is to capitalize on your bull and female investment and have a highly dependable Angus genetic source, Arntzen Angus. Call anytime to visit about the bulls and females and keep in touch with us to contact your calves. See you at the 50th Arntzen Angus Sale.

Sincerely,

***Dan & Marilyn Deichmann***
